Job Description – Angular Developer

Company: BOGO Infotech LLC

Position: Angular Developer

Experience: 1–4 Years

Location: Remote

Notice Period: Immediate to 30 Days

Employment Type: Full-Time

About BOGO Infotech LLC

BOGO Infotech LLC is looking for a skilled and enthusiastic Angular Developer to join our growing development team. The ideal candidate should have hands-on experience in developing responsive, scalable, and user-friendly web applications using Angular and modern front-end technologies.

Key Responsibilities

- Develop,maintain, and enhance responsive web applications using Angular.
- Build reusable components and frontend libraries for future use.
- Convert UI/UX designs and wireframes into high-quality, functional web interfaces.
- Integrate RESTful APIs and work closely with backend developers.
- Optimize applications for maximum speed, performance, and scalability.
- Identify, troubleshoot, and resolve bugs and technical issues.
- Ensure cross-browser compatibility and responsive design.
- Participate in code reviews and follow best coding practices.
- Collaborate with designers, developers, and other team members to deliver quality solutions.

Required Technical Skills

- 1–4 years of hands-on experience in Angular development.
- Strong knowledge of Angular (Angular 12+ preferred).
- Good understanding of JavaScript, TypeScript, HTML5, and CSS3.
- Experience with Angular components, directives, services, modules, and routing.
- Experience with REST API integration and JSON.
- Familiarity with CI/CD pipelines and deployment processes.
- Basic understanding of cloud platforms such as AWS, Azure, or GCP.
- Knowledge of Git or other version control systems.
- Familiarity with Bootstrap, Angular Material, or other UI frameworks.
- Understanding responsive web design and cross-browser compatibility.
- Basic knowledge of Git or other version control systems.
- Understanding debugging, troubleshooting, and performance optimization.

Good to Have

- Familiarity with Agile/Scrum development methodologies.
- Basic understanding of Node.js.
- Knowledge of CI/CD processes.

Candidate Requirements

- Strong problem-solving and analytical skills.
- Good communication and collaboration abilities.
- Ability to work independently in a remote working environment.
- Willingness to learn and adapt to new technologies.
- Strong attention to detail and commitment to delivering quality work.
